

QUESTION #6

Is there a truck route in Versailles?

ANSWER:

Yes, there is a truck route! Under Section 440.01 of the ordinances of the Village of Versailles, through trucks must use state or truck routes. By definition, a “through truck” is any truck traveling through the Village of Versailles without making any stops. This would seem fairly easy to understand until you consider the fact that not all businesses are located on state or truck routes.

In these cases, trucks are permitted to leave the state or truck route to make local deliveries.
